

VILLA WOLF 2021 Sauvignon Blanc

A brilliantly pure, ripe and fruit-forward Sauvignon Blanc with pristine structure and true varietal character.

As with all of the Villa Wolf varietal wines, the Sauvignon Blanc is produced from fruit that has reached optimum ripeness, but is not over ripe. And only clean, healthy fruit (without botrytis) is allowed. The sandy loam soils of the Pfalz region produces fruit with excellent purity and varietal expression, resulting in wines that are fresh and juicy, with aromatic character and a crisp backbone of acidity.

THE VILLA WOLF WINERY

Founded in 1756, the Villa Wolf winery was a successful and highly regarded wine estate for more than two centuries. Ernst Loosen, owner of Dr. Loosen, took over the winery in 1996, launching a dramatic revival of the estate’s quality and reputation. The Villa Wolf varietal line-up features exceptionally affordable, classic Pfalz wines made from traditional grape varieties. The Pfalz (aka ‘Palatinate’) region is in the Rhine river valley in southwest Germany. Because it is one of the warmer and drier areas of cool-climate Germany, wine grapes do quite well here, where it is possible to achieve full ripeness in every vintage.

THE 2021 VINTAGE

After six consecutive hot and very dry years, the 2021 vintage was a welcome change. The year was rather cool and moist which presented unique challenges in the Pfalz. These weather conditions increased disease potential and made it hard for Pinot Noir and early ripening white wine varieties to ripen evenly. We also worried that the excess rain in the spring would negatively impact the flowering in June, but it took place with no issues thanks to the extensive canopy management work we had done in advance. The sun finally appeared when it really mattered – in September and October – and we were able to harvest perfectly ripe and healthy grapes. Our 2021 vintage wines exude a wonderful balance of ripe fruit aromas, excellent acidity, and elegant minerality. They already offer great enjoyment to drink now, but will also benefit greatly from cellaring.
